SUMMARY

I used to be a graphic designer but then I fell in love with programming. I am currently a front-end developer with more than 3 years of experience, and a little bit of back-end developer as well. I love solving bugs and problems and I like creating websites. I really believe that nothing is more important and exciting than learning and teaching web-based technologies and there is still so much for me to learn. I am extremely patient and friendly with my co-workers and teammates and socialize well with people. Basically, if you have some coffee or Nescafe, I can work with you!

SKILLS

JavaScript, React, Redux, Html, CSS, SASS, Tailwind, StoryBook, NextJs, JQuery, Agile & Scrum, Git, **Python**, **Django**, Rest API, Familiar with TypeScript, React-query, Unit Testing, End-to-end Testing with Cypress, Linux OS.

GRAPHIC SKILLS

Adobe Photoshop, Adobe AfterEffects, Adobe Premiere Pro, Figma, Zeplin

EXPERIENCE

[Digikala](#), Tehran, Iran — *Front-end Engineer*

August 2020 – Present

- Collaborated in a team of 50 people closely with designers, developers, QA engineers, scrum masters, and product managers using Scrum.
- Developed features and maintained the website using React, JavaScript, Tailwind, React-query, and NextJs.
- Constructed features and maintained the old version of the website using Twig, JQuery, JavaScript, SASS.
- Worked as the main developer on the old version of the website and led new interns.
- Managed Google Analytics and analyzed users' preferences by setting events and controlling their interactions.
- Suggested creating a public favorite list feature and then designed, developed, and tested it using Figma, pure JavaScript, JQuery, and SASS.
- Wrote unit and end-to-end tests for the new version of the project with Cypress and Jest.

SnappCarFix, Esfahan, Iran — *Head of Front-end Team*

May 2019 – August 2020

- Built front-end projects using JavaScript, React, AntDesign, Redux, PWA methods, REST API.
- Established the base of UI components and application styling with SASS and AntDesign.
- Managed a team of 5 people using agile and scrum.
- Created 4 progressive web applications and two admin dashboards.
- Updated previously cached data by adding a version number to the app and reading it dynamically which resulted in 50% better performance.
- Mentored more than 5 people and taught them React, Html, CSS, SASS, and JavaScript.
- Controlled user's login attempts with Google reCaptcha and used server-side cookies for authentication.

Self Employed, Esfahan, Iran — *Freelance*

January 2018 – Present

- Designed and developed websites using WordPress, PHP (Laravel), Django (Python), JavaScript and React.
- Handled both client-side application and server-side APIs.
- Worked on motion graphics, animations, and video editing using AfterEffect and Premiere Pro
- More than 400 hours of teaching front-end development, motion graphics, Photoshop, AfterEffects.
