SUMMARY

I am a **front-end engineer** with **+5 years** of experience and am familiar with **back-end** technologies.

I love solving bugs and problems. Nothing is more important and exciting than learning and teaching web-based technologies and there is still so much for me to learn. I am incredibly patient and friendly with my co-workers and teammates and socialize well with people.

EDUCATION

Islamic Azad University, Najaf Abad Branch
Bachelor's degree, Computer Software Engineering

Esfahan, Iran
Sep 2016 - Sep 2021

EXPERIENCE

Digikala
Senior Front-end Engineer

Tehran, Iran
Aug 2020 - Present

- Complete rewriting of 2 E-commerce sites with **JavaScript**, **ReactJS**, **NextJS**, and **TypeScript** with large teams and **agile methodology**. Also experience working with **Spotify Squad Framework**.

- Development of **GA** services including **Datalayer** to collect and analyze user behavior and implement **more than 20 A/B tests**. I also worked with tools like **In-Sider**, **In-Track**, **Big-Data Tracker**, and **Google Tag Manager**.

- Creating **Dynamic-Landing** for faster creation of landing pages on the site with more than **30 different types of modules and components** for use on the pages.

- Writing **unit tests** and **E2E tests** for different parts of the project with **Jest** and **React-Testing-Library** and **Cypress**. Also, using Storybook to have a demo of core components and use them more easily in other projects.

- The experience of using **mono-repository** with **NX** along with **micro front-end**, and creating **optimal code style** and integrated **project structure**. 80% preservation of code style guide and project structure by customizing **ES-Lint**, **Perttier**, and **Code Review**.

SnappCarFix
Front-end Team Lead

Esfahan, Iran
May 2019 - Aug 2020

- **Mentored** and **guided** more than **5 new engineers**, helped them to grow their soft skills, and

worked on **3** individual project types with the same technology for different parts of the company.

- Rebuilt the platform from **WordPress** to **JavaScript**, and **ReactJs** and made more requests with **better UI/UX** and fewer development hassles resulting in a **90% improvement in user experience**.
- Made **high-performance** and **high-use timers** for advertisements and discount banners on the site, which improved the site's loading time by **2 seconds**.
- Development of a **general layout** and **various components** as a **package** that can be installed for all front-end projects.
- Experience working with **trunk-based development** in projects.

Self-Employed

Esfahan, Iran
Jan 2019 - May 2019

Freelancer Web Developer

- Created more than **12 landing pages** for events and promotions.
- Designed and implemented **2 web platforms** with **ReactJs**, **PWA**, and **Django** for club management and product sales, which have been running for more than **3 years**.
