About me

I used to be a graphic designer but then I fell in love with programming.

I am currently a front-end programmer, and a little bit of back-end as well. I love solving bugs and problems and I like creating websites. I really believe that nothing is more important and exciting than learning and teaching web-based technologies and there is still so much for me to learn. Basically, if you have some coffee or Nescafe, I can work with you!

Working experience

- ### Front-End Developer
  From July 2020 to present

  Digikala Shop

  React programmer, designing a website and PWA at Digikala Group

- ### Head of Front-End Team
  From March 2019 to July 2020

  Motosel Industrial Group Inc.

  React programmer, designing a website for selling coupons and products, creating PWA applications for giving services to clients.

  Working with internet taxi Companies such as Snapp and Tap30

- ### React Programmer
  From October 2018 to March 2019

  React and React Native Programmer, creating and developing store websites and apps.

- ### Freelance Programming and Developing

PHP (Laravel) programmer, creating and writing store websites, teaching websites, athletic websites, etc. Creating web systems, and working experience with Joomla and WordPress for creating themes and sites.

- Creating Motion Graphic Animations and Video Editing

Since 2015 to present

Editing and creating videos and their sounds with animation motion graphics.

Working with internet taxis such as Tap30, Chappar Persian-Canadian Startup, Isatis Elastic Ceilings, TakNama Digital can Opener Company, Mahak electrical jack building company, the seventeenth Building Industry Exhibition of Tehran, Alborz State Engineering System, Yazd Standard Organization, Esfahan Police Department, Weekly Chat program, Miad Adineh program of Esfahan Channel, etc.
